WHY ATTEND?

Now in its **25th year**. **RDH Under One Roof** is a conference and exhibition exclusively for dental hygienists. **RDH Under One Roof** is **THE** event for the dental hygiene profession.

TAKE IT FROM THESE HYGIENISTS, THIS IS AN EVENT YOU DON'T WANT TO MISS!

It's a great conference to experience! The exhibit hall is filled with products geared towards our profession and filled with fellow RDHS!

The energy is contagious, and you will leave re-energized!

It's the best opportunity to stay engaged, excited, and on top of our profession.

GENERAL INFORMATION & FAQs

ON-SITE REGISTRATION HOURS

Thursday, July 17, 2025	2:00 PM - 6:00 PM
Friday, July 18, 2025	7:00 AM - 6:00 PM
Saturday, July 19, 2025	7:00 AM - 6:00 PM
Sunday, July 20, 2025	7:00 AM - 1:00 PM

EXHIBIT HALL HOURS

Friday, July 18, 2025	5:00 PM - 7:30 PM
Saturday, July 19, 2025	10:00 AM - 3:00 PM 5:30 PM - 7:30 PM
Sunday, July 20, 2025	9:30 AM - 1:30 PM

REGISTRATION

What is included in a full conference registration?

- U All general sessions, including the mega, keynote, and wrap-up sessions
- U Up to 20 CE credits if you attend only general sessions all three days
- U Access to the exhibit hall floor to visit and network with 125+ exhibitors
- U Lunch on the exhibit hall floor Saturday and Sunday
- U Networking reception on the exhibit hall floor Friday and Saturday evening

See page 37 for additional Registration details.

Please note: Workshops are not included in a full conference registration. Additional registration is required to attend workshops.

GENERAL EVENT

What meals are included?

- U Full conference attendees receive lunch on Saturday and Sunday and drinks and snacks at each of the networking receptions on the exhibit hall floor.
- U **Please note:** Lunch on Friday will be on your own.

TRAVEL TIPS

How do I book my hotel room?

- U **See page 36 for details.**

How do I find a roommate?

- U Join our private Facebook group (RDH Under One Roof Official) to become acquainted with fellow attendees.

What do I wear? How should I pack?

- U Typical attire for attendees ranges from business casual to casual. It will be hot outside, but the session rooms will be set for 72 degrees. This can feel chilly to some, so bring a sweater or light jacket to wear during the day.

EXHIBIT HALL

Will I have time to visit the exhibit hall?

- U Yes, and there is so much to see! Visit the exhibit hall during lunch, in between sessions, and during the evening receptions.
- U **See pages 33-34** for a full diagram of the exhibit hall and a list of exhibiting companies.

GENERAL INFORMATION & FAQs

CONFERENCE

What is a general session?

U General sessions are large group courses open to all registered conference attendees. Seating is first come, first served, so come early to get a good seat. No additional registration is needed to attend any of the general sessions.

What is a workshop?

W Workshops are small group courses with hands-on elements. Workshops are ticketed and required additional registration for a nominal fee. If you are more than 15 minutes late to a workshop, you will not be allowed in.

What if I am late to a course?

U In an effort to keep the conference program on schedule, courses start promptly. Be early!

W If you are late to a general session, try to enter the room as quietly as possible and find a seat.

U If you are late to a workshop, you may lose your seat! Workshops are always in high demand and often sell out prior to the event. On-site wait-lists are used to fill empty seats. If you are late, your seat will likely be filled.

W If you miss a workshop, you can choose to attend another workshop that is not already sold out. Check in with registration on-site to work out your specific situation. Please note: Refunds will NOT be issued on missed workshops.

Will there be course handouts?

U General sessions will have handouts provided online approximately 30 days before the event. All preregistered attendees will be sent an email notice that the handouts are ready to be printed and downloaded.

W Workshop materials are all provided by the presenter and handed out during the session.

GENERAL INFORMATION & FAQs

GENERAL EVENT

How many credits can I expect to earn while attending UOR?

U You can earn up to 20 CE credits by attending general sessions in every time slot on all three days. This includes attendance at the mega, keynote, and wrap-up sessions.

🌟 Organize your time to fit your needs. The number of CE credits available is indicated on each course. You can maximize your time to earn as many credits as possible—or earn what you need.

How do I collect my CE credits?

U There is a CE kiosk on-site where you can collect your CE certifications of completion and verification. To do this, follow these instructions: At the end of every session you will be given a CE code. Write down the code and visit the CE kiosk when convenient. At the kiosk, log in, take the course evaluation, and print your CE verification. The CE kiosk will be open all three days of the event. CE redemptions may also be done later from home. Customer service support is available onsite and by phone or email, if needed.

CE CLAIM CREDIT/CE KIOSK INFORMATION

Collect your continuing education credits while on-site at the event.

1. Write down the course code at the end of each session you attend.
2. Visit the onsite CE kiosk and complete the course evaluation.
3. Print the CE verification.

CE Kiosk Hours:

Friday, July 18	10:00 AM - 6:00 PM
Saturday, July 19	7:00 AM - 6:00 PM
Sunday, July 20	7:00 AM - 3:30 PM

Visit dentalacademyofcontinuingeducation.com to access the full library of self-study CE offered by the Dental Academy of Continuing Education!

CONFERENCE

PROVIDER ACCREDITATIONS & DISCLOSURES

Endeavor Business Media is an ADA CERP-recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Endeavor's recognition of term extends from 05/1/2022 - 6/30/2025.

Endeavor Business Media

Nationally Approved PACE Program Provider for FAGD/MAGD credit.

Approval does not imply acceptance by any regulatory authority or AGD endorsement.

11/1/2025 to 10/31/2028.

Provider ID# 320452

Endeavor Business Media is an American Academy of Dental Hygiene (AADH) approved provider through December 31, 2026.

PROVIDER DISCLOSURE: Endeavor Business Media's Dental Division does not have a leadership or financial/commercial interest in any products or services discussed or shared in any of the educational activities presented at RDH Under One Roof 2025.

PROVIDER/CE PLANNING MEMBERS DISCLOSURE: Chris Page, RDH Sales Manager, has no relevant financial interest that may create a conflict of interest related to RDH Under One Roof. Laura Winfield-Roy, Conference Manager, has no relevant financial interest that may create a conflict of interest related to RDH Under One Roof.

CAUTION! Completing a single continuing education activity DOES NOT provide enough information to claim that the participant is an expert on the topic presented. It is a combination of many educational activities and clinical experience that allows the participant to develop skills and expertise.

PROVIDER CONTACT INFORMATION:

Laura Winfield-Roy
Conference Manager,
lwinfield@endeavorb2b.com
or direct at 918-831-9869

CONFERENCE DETAILS

Courses with commercial support provided by an unrestricted educational grant include the logo of the commercial supporter. Expanded information regarding speakers, session details, and other conference and event information can be found on the **RDH Under One Roof website, rdhunderonerof.com.**

GENERAL SESSIONS comprise most of the UOR presentations. They are included in a full conference registration. Seating is first come, first serve, so arrive early to get a good seat!

MEGA SESSIONS, KEYNOTE, and WRAP-UP SESSIONS are all-attendee general sessions and are also included in a full conference registration.

WORKSHOPS are small hands-on sessions in a classroom setting. Workshops require additional registration to attend. Workshops sell out quickly! Do not miss the opportunity to attend—register early.

NETWORKING ACTIVITIES are fun non-CE activities designed to promote fellowship and mentorship with your peers. Registration is required to attend. Lunch on Saturday and Sunday and several receptions are included in a full conference registration.

8:00 AM - 10:00 AM - OPENING MEGA SESSION

2 CE | Professional Development

Kick-Off Mega Session - Turning Ordinary into Extraordinary

Ankur A. Gupta, DDS

Learning Objectives:

- Gain strategies and tools for inspiring a culture of self-directed leaders in the practice
- Explore a culture of autonomy in which team members feel ownership with practice improvement and implementation
- Identify internally designed accountability systems
- Completely re-think the norms of the patient experience
- Discover the #1 happiness and relationship killer that also affects your ability to perform more comprehensive dentistry
- Introduce dynamic and underutilized clinical changes that are valuable, needed by patients, but also easy on our back and hands

COMMERCIALLY SUPPORTED BY:

CONFERENCE DETAILS

FRIDAY, JULY 18, 2025 - DAY 1 (cont.)

10:30 AM - 12:30 PM - GENERAL SESSION

2 CE | Oncology

The Unsexy Truth: Discussing HPV and Oropharyngeal Cancer

Susan Cotten, BS, RDH, OMT

Jonathan Jones, AAS, RDH

Learning Objectives:

- Discuss the Human Papillomavirus/HPV (including) the HPV vaccine and communications strategies.
- Examine the components of a comprehensive oropharyngeal evaluation and testing options for HPV oropharyngeal infections.
- Explain the health disparities within the LGBTQIA+ community.
- Identify who and why within the LGBTQIA+ community are most at risk for HPV OPC.

10:30 AM - 12:30 PM - GENERAL SESSION

2 CE | Clinical Dental Hygiene

Air Polishing: Take Control of the “Mess”

Cynthia Fong, RDH, MS

Learning Objectives:

- Compare and contrast the rationale for use of air polishers versus rubber cup polishing.
- Discuss the efficacy and safety of using air polishers in clinical practice.
- Distinguish between the various air polishing agents and its application based on the patient's oral conditions.
- Describe the proper air polishing clinical techniques to manage aerosols and ensure patient comfort and safety.

10:30 AM - 12:30 PM - GENERAL SESSION

2 CE | Ergonomics

The hand bone's connected to the neck bones - Postural Ergonomics for the Dental Hygienist

Katrina Klein, RDH, CEAS, CPT, FRSms

Learning Objectives:

- Identify risk factors involved in work related pain for the dental clinician.
- Understand the importance and actions involved in physical preparation for the physically taxing demands of a dental clinician.
- Learn how to identify and correct common chairside habits that can lead to physical dysfunction and pain in the body.
- Practice chairside stretches of typical chronically tight muscles experienced by dental clinicians.
- Receive practical application of how to incorporate postural into daily practice in the office and at home.

10:30 AM - 12:30 PM - GENERAL SESSION

2 CE | Dental Hygiene Products

Inspiring Your Views of New Products

Amanda Hill, BSDH, RDH, CDIPC

Learning Objectives:

- Qualify and quantify improvements in today's top performing products
- Clarify and compare the newest materials and products for various aspects of dentistry
- Explore and evaluate your best options in appropriate delivery of treatments
- Communicate and coach your patients to the most appropriate care
- Stimulate and spearhead the change you've always wanted

***THIS COURSE IS COMMERCIALY SUPPORTED.**

FRIDAY, JULY 18, 2025 - DAY 1 (cont.)

2:00 PM - 3:00 PM - MINI SESSION

1 CE | Implants

The RDH Checklist for Implant Maintenance and Identifying Failure

Irene Iancu, BSC, RRDH, CTD, OM

Learning Objectives:

- Identify Clinical Indicators of Implant Complications: Recognize the clinical signs of implant failure, including pain, inflammation, and mobility, enabling prompt and accurate identification of potential complications in dental implant patients.
- Apply Evidence-Based Diagnostic Techniques: Utilize radiographic assessment effectively to detect early bone loss and identify possible issues, enhancing the ability to diagnose and address implant-related challenges in their early stages.
- Formulate Effective Peri-Implantitis Management Strategies: Develop evidence-based strategies for diagnosing and managing peri-implantitis, equipped with the knowledge to prevent and address inflammatory conditions around dental implants.
- Implement Specialized Maintenance Protocols: Apply specialized techniques and instruments to perform professional cleaning around dental implants without compromising their integrity, ensuring meticulous maintenance for long-term implant success.
- Establish Structured Follow-Up Regimens: Design and implement a structured recall system for implant patients, determining optimal appointment frequency and incorporating radiographic assessments to ensure consistent monitoring of implant health.

2:00 PM - 3:00 PM - MINI SESSION

1 CE | Oral Systemic Health

From Plaque to Brain Health: The Oral-Neurological Connection in Alzheimer's

Sianna Trudell, RDH

Learning Objectives:

- Understand the bidirectional relationship between oral health and Alzheimer's disease, recognizing potential mechanisms and pathways linking oral conditions to Alzheimer's disease risk and progression.
- Evaluate the role of chronic periodontal inflammation and oral microbiota in systemic inflammation and neurodegenerative processes implicated in Alzheimer's disease.
- Explore epidemiological evidence linking periodontal disease and poor oral health to Alzheimer's disease risk and cognitive decline.
- Discuss the potential role of oral bacteria and periodontal pathogens in the pathogenesis of Alzheimer's disease, including their ability to cross the blood-brain barrier and induce neuroinflammatory responses.

2:00 PM - 3:00 PM - MINI SESSION

1 CE | Radiography

X-Ray Vision: Harnessing AI and the Art and Science of Dental Radiography

Carissa Regnerus, RDH, MA, FADHA

Learning Objectives:

- Discuss various sources of radiation exposure and how dental radiography compares in terms of safety and dosage.
- Enhance safety and diagnostic quality of dental radiographic images by implementing effective troubleshooting protocols and a comprehensive quality assurance program.
- Discuss the evolution of dental radiology and the role of AI in leveraging diagnostic accuracy and improving patient outcomes.

CONFERENCE DETAILS

FRIDAY, JULY 18, 2025 - DAY 1 (cont.)

2:00 PM - 3:00 PM - MINI SESSION

1 CE | Mental Health

Managing Mental Health in and out of the Dental Op: RDH Edition

Harishni Ramesha, RDH, HBS, MEd

Learning Objectives:

- Identify Mental Health Disorders in Clients and Colleagues: Develop the skills to recognize key signs and symptoms of common mental health disorders, including anxiety, depression, mood, and personality disorders.
- Understand the Impact of Mental Health on Your Professional Life: Explore how mental health challenges can influence your career as a Registered Dental Hygienist (RDH), and learn strategies to navigate these challenges effectively. 3
- Maintain Mental Well-being in and out of the Operator: Gain practical insights into managing your mental health both within the clinical setting and in your personal life, ensuring sustained well-being and professional longevity.
- Apply Effective Coping Strategies During Stressful Situations: Engage in the practice of evidence-based coping mechanisms that can be used during moments of distress, enhancing your ability to remain resilient in demanding environments.

2:00 PM - 3:00 PM - MINI SESSION

1 CE | Clinical Dental Hygiene

Paint your Way to Better Smiles: Revolutionizing Dental Care with Paint-On Technologies

Jessica Woods, MPH, RDH, FADHA

Hayley Buckner, RDH, BS, FADHA, MADHA

Learning Objectives:

- Explain the concept of minimally invasive dentistry and how paint-on technologies fit within this paradigm for caries detection, prevention, and management.
- Understand the mechanism of action for each paint-on technology and its role in remineralization, caries arrest, and prevention.
- Learn proper application techniques for each technology, focusing on safe and effective clinical protocols.
- Evaluate the evidence-based benefits and limitations of each technology in the context of patient care, treatment outcomes, and cost-effectiveness.
- Integrate paint-on technologies into clinical practice, enhancing minimally invasive approaches for early caries management, prevention, and patient education.

COMMERCIALY SUPPORTED BY:

3:30 PM - 5:30 PM - GENERAL SESSION

2 CE

Joint Understanding: Advanced Insights into Myofunctional Therapy for TMJ Health

Karese Laguerre, RDH

Learning Objectives:

- Identify compensatory patterns in TMJ function and understand how myofunctional therapy can remediate these patterns to maintain joint health.
- Recognize the role of myofunctional therapy in addressing mouth breathing and its direct impact on preventing TMJ disorders.
- Develop strategies to collaborate effectively with myofunctional therapists and triage with exercises, enhancing the integration of myofunctional therapy with current TMJ therapies for comprehensive patient care.
- Make informed referrals to myofunctional therapists based on a thorough understanding of how myofunctional therapy complements dental treatments, particularly in cases involving parafunctional habits.

2 CE | Nutrition

The Battle of the Microbiome: Synergizing Oral Health and Nutrition

Anne Rice, RDH, BS, FAAOSH, CDP
Camille Zenobia, PhD

Learning Objectives :

- Identify specific vitamins and nutrients that feed a healthy mouth
- Understand the dimensions of antimicrobials and their alterations to the microbiome
- Recognize the gingival inflammatory process and how it feeds pathogenic features of the oral microbiome
- Distinguish specific oral hygiene ingredients that may hinder or help difficult cases

COMMERCIALY SUPPORTED BY:

3:30 PM - 5:30 PM - GENERAL SESSION

2 CE | Anesthetics

Advanced Anesthetics

Alyssa Delgado, RDH, MSDH, MAADH

Learning Objectives

- Determine the impact of pharmacology that local anesthetics have on efficacy of obtaining profound anesthesia
- Identify the oral soft tissue, cranial nerves, and blood vessels related to the delivery of local anesthetics utilizing advanced injection techniques
- Troubleshoot injection techniques and manage patient complications, as needed

CONFERENCE

CONFERENCE DETAILS

FRIDAY, JULY 18, 2025 - DAY 1 (cont.)

3:30 PM - 5:30 PM - GENERAL SESSION

2 CE | Dental Hygiene Products

Kami Hoss, DDS, MS

Learning Objectives

- **Revolutionize Your Recommendations** Identify the most effective and safe oral care ingredients—including fluoride, hydroxyapatite (micro and nano), probiotics, and more—to confidently tailor patient advice based on age, risk factors, and personal preferences.
- **Unlock the Oral-Systemic Connection** Understand how the oral microbiome, periodontal disease, and dental caries link to overall health, mental well-being, pregnancy, and chronic disease risk.
- **Debunk Common Myths & Controversies** Separate fact from fiction about mouthwash safety, so-called “natural” vs. conventional toothpaste, sugar’s role in cavities, and more—empowering you to dispel misinformation effectively.
- **Go Beyond the Fluoride Debate** Recognize why focusing solely on fluoride vs. non-fluoride is limiting, and explore how hydroxyapatite compares—equipping you to address patient concerns with clarity and credibility.
- **Understand Comprehensive Ingredient Safety** Identify toxic “forever chemicals” and other controversial additives in products (including floss), while discovering trusted, unbiased sources to ensure patient safety.
- **Elevate Preventive Care Across All Life Stages** Master strategies to reduce decalcifications in orthodontic patients, support healthy pregnancies, and prevent dental disease (the #1 disease globally) with age-specific recommendations for children, teens, and adults—boosting adherence and outcomes for every patient.

Reframing Resilience: The Power of Meaningful Connection

Paul Long

COMMERCIALY SUPPORTED BY:

PHILIPS RDH

Learning Objectives:

Looking to celebrate, educate and inspire your conference or meeting attendees? Could they be challenged by the monotony of mundane tasks or experiences? Sounds like you need Paul's signature keynote: "Reframing Resilience: The Power of Meaningful Connection." Everyone in society has a shared human connection. We all have been through something, are currently going through something or will, inevitably go through something. So how do we leverage that foundation to connect more to the present, others and ourselves? In this keynote your attendees will learn how to use Paul's philosophy, Fundamism, to create brain pattern interrupts that will enable them to get out of their head and into the moment. Paul's message will lead your team through a wealth of emotions as they laugh, think, reflect and have FUN while learning tactical tips to create more meaningful interactions with others.

10:30 AM - 12:30 PM - GENERAL SESSION

2 CE | Instrumentation

This or That: Which Instrument Should I Choose?

Whitney Howerton, MDH, RDH, CDIPC

Lisa Baker, RDH, BS

Learning Objective:

- Recall the composition of diagnostic, universal and area-specific instrument design including handle design, upper shank versus terminal shank, and adaptation of the cutting edge.
- Expand diagnostic skills by utilizing advanced diagnostic instruments, enhancing participants' ability to assess periodontal health with greater accuracy.
- Evaluate the specific uses, benefits, and limitations of dental instruments in a variety of patient case scenarios, improving instrument selection and clinical application.

COMMERCIALY SUPPORTED BY:

SATURDAY, JULY 19, 2025 - DAY 2 (cont.)

10:30 AM - 12:30 PM - GENERAL SESSION

2 CE | Oral Systemic Health

Stick your tongue out for me - uncover the secrets to better oral and systemic health

Lani McBeth, BSDH EFDH CIABDM

Learning Objectives:

- Review of tongue anatomy and traditional conditions
- Examine the history of Chinese Tongue Diagnosis
- Describe the organ tomography utilized in Chinese Tongue Diagnosis
- Reproduce the steps to a Chinese Tongue exam

10:30 AM - 12:30 PM - GENERAL SESSION

2 CE | Periodontal

Desiccation Therapy - A new frontier in managing dysbiotic periodontal disease

Anne Guignon, RDH, MPH, CSP

Learning Objectives:

- Recognize the benefits of biofilm removal for the patient, clinician, and dental practice.
- Identify how periodontal pathogens create and support a dysbiotic biofilm community.
- Examine the role of desiccation therapy in biofilm dysregulation, debris removal, and hemostasis.
- Utilize various case presentations to validate, through interactive clinical discussions, the use of adjunctive desiccation therapy.

COMMERCIALY SUPPORTED BY:

10:30 AM - 12:30 PM - GENERAL SESSION

2 CE | Dental Hygiene Products

Inspiring Your Views of New Products

Amanda Hill, BSDH, RDH, CDIPC

Learning Objectives:

- Qualify and quantify improvements in today's top performing products
- Clarify and compare the newest materials and products for various aspects of dentistry
- Explore and evaluate your best options in appropriate delivery of treatments
- Communicate and coach your patients to the most appropriate care
- Stimulate and spearhead the change you've always wanted

***THIS COURSE IS COMMERCIALY SUPPORTED.**

2 CE | Preventive Dentistry

Enamel Revolution: Advancing Caries Care with Nanotechnology and Regeneration

Bethany Montoya, MBA, RDH

Learning Objectives:

- Explain the microscopic structure of tooth enamel and its role in maintaining dental health, with a focus on enamel's resilience and susceptibility to demineralization
- Describe the dental caries process, including the chemical and biological mechanisms of enamel demineralization and remineralization, and factors influencing these dynamics
- Evaluate traditional methods for managing enamel demineralization, such as fluoride application, dietary modifications, and remineralizing agents, identifying their benefits and limitations
- Assess the clinical potential of calcium phosphate ion clusters as a nanotechnology for enamel regeneration, including their mechanism of action and implications for future preventative and restorative dental care

MINI SESSION

SATURDAY, JULY 19, 2025 - DAY 2 (cont.)

2:00 PM - 3:00 PM - MINI SESSION

1 CE | Sleep Apnea

Connecting the Dots: The Role of Dental Professionals in Sleep-Disordered Breathing

An Chih Do, RDH, MEd, MAADH, FADHA

Learning Objectives:

- Describe the origins of an underdeveloped jaw.
- Recognize how an underdeveloped jaw contributes to SDB.
- Identify signs and symptoms of SDB in both children and adults during clinical evaluations.
- Develop a protocol for the assessment of SDB and referral of SDB.

2:00 PM - 3:00 PM - MINI SESSION

1 CE | Communication & Patient Compliance

Combating Dental Health Misinformation on Social Media: Effective Communication Strategies

Whitney DiFoggio, RDH, MS

Learning Objectives:

- Identify common types of misinformation related to dental health on social media platforms.
- Employ effective strategies to correct misinformation without compromising audience engagement.
- Proactively engage with patients and the public through interactive and informative content on social media platforms.
- Tailor communication strategies to effectively counter misinformation while maintaining credibility. -Collaborate with other dental professionals to enhance collective advocacy for evidence-based practices.

2:00 PM - 3:00 PM - MINI SESSION

1 CE | Patient Care & Self Care

Some Detours Aren't Roadblocks- How to Empower Yourself in the Midst of Stress!

Kelsey Miller, LDH, BSDH, M.S.Ed.

Learning Objectives:

- Identify personal strengths and strategies to self-navigate practical solutions and overcome adversity.
- Discuss ways to regulate stress in general and in the dental practice, and promote positive coping mechanisms.
- Recognize problem-solving techniques tailored to individual talents.

CONFERENCE DETAILS

SATURDAY, JULY 19, 2025 - DAY 2 (cont.)

2:00 PM - 3:00 PM - MINI SESSION

1 CE | Public Health

Smile, It's Public Health: Saving Lives, One Smile at a Time

Crystal Spring, RDH, BS, LAP, FADHA

Learning Objectives:

- Empower Community Health through Education: Learn to create and implement educational programs that raise awareness about the critical role of oral health in overall health, fostering a culture of prevention within communities.
- Promote Holistic Health Screenings: Explore the role of oral health professionals in conducting screenings for a wide range of health concerns, including behavioral, mental, and physical health, and learn effective communication strategies with other health providers.
- Innovate with Integrated Care Models: Analyze innovative care delivery models, such as mobile clinics and school-based programs, that exemplify the potential of medical-dental integration in reducing health disparities.
- Build Effective Partnerships: Identify strategies for forming partnerships and securing grants that support public health initiatives, ensuring that underserved populations receive the same quality of care as those in private health systems.

Clinical Hygiene Trends & Hot Topics: A Conversation with the Experts

Melissa K. Turner, BASDH, RDHEP, EFDA

Learning Objectives

- Learn the latest on practical application of clinical periodontal therapies from identifying early signs of periodontal issues to providing ongoing maintenance and education
- Discover how to strengthen the individual clinician through mental health and wellness via self-care, burnout prevention, and resilience strengthening
- Understand how gathering and assessing patient information can allow clinicians to tailor treatment and improve patient outcomes
- Clarify best practices for patient education that fosters patient trust and long-term relationships
- Review various innovative clinical technologies to assist with patient education and case acceptance

SUNDAY, JULY 20, 2025 - DAY 3

7:30 AM - 9:30 AM - GENERAL SESSION

2 CE | Oral-Systemic Health

Biohacking Oral Health

Melissa Obrotka, BA, RDH

Learning Objectives:

- Define biohacking and what the movement means to dentistry.
- Discover how applying AI enhances the patients' understanding of diagnostic concepts and increases case acceptance.
- Interpret how the increased understanding of airway, occlusion, and the oral microbiome is impacting oral health and overall health.
- Analyze how minimally invasive prescriptive protocols like salivary diagnostics and GBT alter the patient experience and improve clinical endpoints.
- Differentiate from case studies highlighting the functional approach to dental hygiene care.

7:30 AM - 9:30 AM - GENERAL SESSION

2 CE | Preventative Dentistry

Advancing Oral Health Protection through Active Prevention

Samantha L. Allen, Ph.D.
Linda D'Amico, RDH, BS

Learning Objectives

- Examine the impact of oral home care on preventable common oral cavity diseases
- Evaluate the evidence from clinical studies supporting the superior prevention and treatment benefits of a bioactive stannous fluoride toothpaste formulation
- Recognize the impact of an active prevention regimen to deliver biofilm and gingivitis reduction above and beyond that of toothpaste alone
- Determine the most appropriate oral home care recommendation based upon specific patient needs

COMMERCIALY SUPPORTED BY:

7:30 AM - 9:30 AM - GENERAL SESSION

2 CE | Clinical Dental Hygiene

Non-Surgical Bone Regeneration Era

Sarah Wright, RDH, SDA

Learning Objectives:

- Shifting clinical thinking from calculus as a causative agent in periodontal disease to a bacterial infection caused by dysbiotic biofilm
- Integrating chairside tools such as microscopy and salivary diagnostics
- Review case study demonstrating pathogenic biofilm slides and microbial reports of a non-surgical bone regeneration case
- Developing tx plans using DNA-PCR testing, Laser therapy, GBT, adjunctive therapies
- GBT as a non-surgical periodontal therapy foundation
- By increasing standard of care in the hygiene op, bone loss can be stopped and encouraged to regenerate

The Art of Furcation Navigation with Ultrasonic Instrumentation

Marianne Dryer, RDH, MEd

Learning Objectives:

- Develop an understanding of the role ultrasonic instrumentation in biofilm reduction and access to anatomical challenges
- Discuss the need for a variety of ultrasonic inserts/tips/instruments for thorough periodontal scaling/debridement including effective access to furcation entrances.
- Identify the steps to ensure thorough removal of deposits and biofilm utilizing slim and ultrathin inserts/tips with an exploratory approach.

7:30 AM - 9:30 AM - GENERAL SESSION

2 CE | DSO

DSO Panel

Andrew Johnston, BS, RDH

Session Details Coming Soon.

10:00 AM - 12:00 PM - GENERAL SESSION

2 CE | Forensic Dentistry

Antemortem Dental Documentation to Aid in Postmortem Forensic Dental Identification

Kimberly Erdman, EdD, RDH, FAADH, FADHA

Learning Objectives:

- Differentiate between presumptive and scientific identification methods
- Compare scientific methods for identifying human remains
- Identify technology for clinical practice that improves forensic capabilities.
- Describe the challenges forensic dental teams encounter with antemortem dental records
- Explain the ethical duty and forensic need to maintain adequate antemortem dental documentation

CONFERENCE

CONFERENCE DETAILS

SUNDAY, JULY 20, 2025 - DAY 3 (cont.)

10:00 AM - 12:00 PM - GENERAL SESSION

2 CE | *The Business of Hygiene*

Emerging Technologies in Dental Hygiene

Linda Chandler-Jacobs, RDH

Learning Objectives:

- To Educate on the Latest Technological Advancements in Dental Hygiene
Description: Participants will gain a comprehensive understanding of the newest technologies in the field, including digital diagnostic tools, AI-powered dental software, and advanced imaging techniques. This objective aims to enhance knowledge of how these innovations can improve diagnostic accuracy and patient outcomes.
- To Demonstrate the Practical Applications of Emerging Technologies in Clinical Settings
Description: Participants will learn how to effectively integrate these technologies into their daily practice. This includes hands-on demonstrations or case studies showcasing the use of digital scanners, intraoral cameras, and other cutting-edge tools in routine dental hygiene procedures.
- To Explore the Impact of Emerging Technologies on Patient Care and Professional Practice
Description: Participants will evaluate the benefits and challenges associated with adopting new technologies in dental hygiene. Discussions will focus on how these tools can enhance patient education, improve treatment planning, and increase efficiency, while also addressing potential barriers such as cost and the learning curve associated with new technology.

10:00 AM - 12:00 PM - GENERAL SESSION

2 CE | *Communication & Patient Compliance*

Oral Health Professional's Role in Domestic Violence

Lisa Mayo, RDH, BSDH, MHA

Learning Objectives:

- Differentiate the various forms of domestic violence and understand long-term health sequela.
- Identify the signs of domestic violence and recommend appropriate interventions.
- Apply the RADAR program in patient management and care plans.

10:00 AM - 12:00 PM - GENERAL SESSION

2 CE | *Evidence Based Care*

Evidence-Based Care, Standard of Care or Just Making It Up as We Go

Joy Void Holmes DHSc, BSDH, RDH, FADHA, AADH

Learning Objectives:

- Define evidence-based dentistry (EBD) and standard of care, and explain the key differences between them.
- Identify sources of reliable evidence-based literature for dentistry and rank them based on credibility.
- Evaluate research findings and apply them effectively to clinical dental hygiene practices.
- Explore the standard of care for common dental hygiene procedures, supported by current literature.
- 5. Develop strategies to integrate and share evidence-based practices with dental office teams.

HYGIENE TOOLS FOR THE INFORMED DENTAL HYGIENIST

MAGAZINES

RDH

RDH is for dental hygienists who are committed to ongoing professional growth. Topics range from clinical and practice management to continuing education.

Request a new subscription or renew your existing subscription to *RDH* by visiting rdhmag.com.

WEBSITES

RDHmag.com

The official *RDH* magazine website, rdhmag.com, features up-to-date information for dental hygienists.

DentalAcademyofCE.com offers awesome continuing education opportunities—often at discounted prices...or even free! There's no better value in CE—find out why today!

Dentistry iQ

This website features all of the latest news in the dental industry and informative resources for every member of the dental office.

Visit our websites for instant access to:

- Breaking industry updates
- Contests and free samples
- CE credit opportunities
- New product announcements
- Feature articles

E-NEWSLETTERS

RDH eVillage.

RDH eVillage is a weekly opt-in e-newsletter that is prepared for dental hygiene professionals who are looking for hard-hitting current information. Each issue contains clinical tips, new products, industry news, answers to clinical questions, practical up-to-date articles, surveys, continuing education, and more.

RDH Graduate

RDH Graduate is an e-newsletter for hygiene students and new hygienists. Dental hygiene's newest practitioners face the challenge of keeping up with the quickly evolving dental profession. RDH Graduate provides timely information for dental hygiene students and recent graduates to help them stay abreast of changes in treatment protocols, technology, and career choices.

Clinical INSIGHTS

The Clinical Insights daily newsletter provides case studies and product information to help you expand your clinical acumen.

Morning Briefing

The Morning Briefing daily newsletter keeps you current on the latest developments in dentistry, including those related to the coronavirus pandemic. It combines the resources of *Dental Economics*, *DentistryIQ*, *Perio-Implant Advisory*, and *RDH* magazine.

RDH MAGAZINE PODCAST

RDH Magazine Podcast is the community of voices you love from RDH Magazine, brought to your podcast feed every week. You can expect to gain education and have the RDH Magazine community in your ears to complement the content you enjoy online and in print each month.

RDH®

Evolution

July 14-16, 2025 | Dallas, TX
Gaylord Texan Resort & Convention Center

Announcing the 5th Live RDH Evolution conference for dental hygienists who are passionate about evolving their career!

RDH Evolution provides a unique opportunity for dental hygienists to learn how to get the most from their career. Attendees will spend two and a half days focusing on professional development, goal setting, clinical expansion, speaking skills, and how to be published. During the program attendees will meet and learn from other likeminded professionals, while networking with corporate sponsors who hire and work with dental hygienists. This career enhancement program will accelerate your career goals as you work with motivated dental hygienists, learn from key opinion leaders who have walked in your shoes, and hear how they used their skills to expand their expertise both in and out of the clinic.

**Register before
May 31, 2025 for just \$399**

Benefits of Attending:

- Learn directly from dental hygiene thought leaders you recognize
- Grow from interactive discussions and define your next steps
