

# PTEN TOP 100 PRODUCTS 2021

## TOP 100 PRODUCTS 2021

### WHEN IT COMES TO SHOWCASING NEW TOOLS

and equipment in the automotive industry — especially those that can help technicians perform their job easier and more efficiently — you know you can always count on *PTEN*. We already share

top products on a monthly and quarterly basis. Take for example our monthly “Top 10 most popular products of the month” that takes a look at the topmost clicked on products that were added during a specific month, or our “Top 10 diagnostic products” that

highlights leading diagnostic tools introduced each quarter. However, our annual Top 100 is different. Each year, we compile all print and online product inquiries submitted from our readers. Through the reader service cards in every issue and our online e-inquiry system, we track what products our readers want to know more about — and then we share our results!

So, look and see what other technicians and shop owners are interested in. Perhaps there’s a tool that is more user friendly than what you’re currently using, or a specialty tool that you didn’t know about. Whatever the case, just know that these requests came from other techs like you, not our editors or advertisers.

-*Kayla Oschmann, Associate Editor*

**FEATURES A BUILT-IN OVERPRESSURE SETTING FUNCTION**  
**Ascot Supply Corporation**

Automatic Inflator

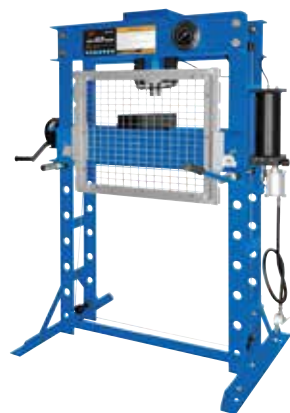

**MADE FROM FORGED HIGH CARBON ALLOY STEEL**  
**Lang Tools**

6-Pc Pry Bar with Strike Cap Set, No. 853-6ST

**MOVABLE CYLINDER PROVIDES ADDED FLEXIBILITY**  
**ATD Tools**

50-Ton Shop Press with Guard, No. ATD-7457

**OFFERS FAST CLEANUP, CHANGEOVERS, AND CYCLE TIMES**

**3M Automotive Aftermarket**

Performance Spray Gun

**CAN BE USED EITHER RIGHT-OR LEFT-HANDED**

**KNIPEX Tools**

Forged Wire Strippers, Nos. 13 71 8 and 13 72 8
